

**Avondale House is now a partner of
Hope Tree Home Loans!**

Dear Friend:

Making a real difference where we live and work is our mission at Hope Tree Home Loans. We are excited to announce our partnership with Avondale House, a 501 (c)(3) not for profit agency that provides education services, a day habilitation program and residential services for individuals diagnosed on the autism spectrum.

Avondale House recognizes that each individual with autism has unique strengths and unique needs and utilizes various training strategies to support their different learning styles. By taking this approach and by remaining open and receptive to the new and the old, Avondale House programs are effective in promoting positive changes in those they serve. For more information about these programs, additional resources, and upcoming events please visit www.avondalehouse.org.

HOW YOU CAN HELP...

Hope Tree Home Loans has launched a new program that will enable you to help Avondale House in the educational and developmental needs of those with autism. Through our new initiative, when you get any type of home loan for any amount from Hope Tree, we will make a donation in your name to Avondale House. The donation will be calculated as a percentage of the principal amount of your loan.

For example: A \$200,000 mortgage would result in a contribution of \$500!

Call today for the most competitive pricing and at the same time help Avondale House with their autism programs.

Sincerely,

**J. Russell Calvert, President
Hope Tree Home Loans**
